Hi Sonya –

Given the context for these questions, I'm checking with senior management to see who they would like to name as the contact. Please hold off on replying for now.

Thanks!

Sarah,

Do you know who owns the following action:

- Region 8 Underground Injection Control (UIC) Draft Area Permits and one associated proposed aquifer exemption decision for the Dewey-Burdock uranium in-situ recovery (ISR) site located near Edgemont, South Dakota, under the authority of the Safe Drinking Water Act and UIC program regulations

See message below.

Thanks,

Sonya L. Moore

Good morning!  
Can you check ADP Tracker (see yellow highlight below) and get back to Patrick with a cc to Barry, Becky, me?  
I am sure the Uranium and Thorium Mill Tailings under 40 CFR Part 192 is OAR/ORIA.  
Not sure if the R8 permit is in ADP Tracker yet – although it is definitely OW's.  
Would Sandy know?  
Thank you.

Barbara – Per Barry, can PARMS check whether this is OAR and get back to Patrick with a cc to Barry? Thank you. Becky

Hey Patrick,

Hope you had a good weekend. I just got out of a meeting and there are two items the Administrator and Sarah are looking for a status update on and to discuss with the appropriate staff.

- EPA Proposed Rule on Health and Environmental Protection Standards for Uranium and Thorium Mill Tailings under 40 CFR Part 192.
- Region 8 Underground Injection Control (UIC) Draft Area Permits and one associated proposed aquifer exemption decision for the Dewey-Burdock uranium in-situ recovery (ISR) site located near Edgemont, South Dakota, under the authority of the Safe Drinking Water Act and UIC program regulations

If these aren't in your wheelhouse just let me know and I'll field to the appropriate staffer/office for Sarah to have a discussion with.

Appreciate it,  
Alex
